

RMH

Reliability

In business since 1980 and specializing in distribution of Industrial Machinery, our services for Pakistan's industry in material handling equipment make the Rastgar name synonymous with customer's satisfaction.

RMH dedicated team of trained engineers exceeds expectation of our customers, together with a reliable range of Hyundai Forklift Trucks. All sectors of material handling equipments are available from Rastgar, to suit all needs of our customers.

With growing number of customers in all industrial sectors of Pakistan continue to enjoy the benefits of a dedicated source together with RMH service and support facilities.

Commitment

RMH has a history of commitment to Pakistan's Industry. We take full responsibility for equipment sold, serviced parts and training of our customer's technicians to take the best results.

Material Handling Equipments in Pakistan

Hyundai's number one priority is to enable machine operators to take pleasure in their work. Therefore, They have developed a complete line of precision and performance products.

Hyundai invest to offer quality solutions, with more than just the machine in mind and they strive for continuous product improvement and outstanding service, to build a better future.

Good material handling is half the work. Hyundai provides material handling machines to various industrial fields, going from heavy construction work to delicate material storage. Our customers can rely on superior performance, outstanding quality, durability and a great comfort level.

Hyundai forklifts offer excellent visibility, ease of use and simple access maximise the operator's productivity.

Services Leasing

KEEP THE CASH.

Rental and leasing allows customers to preserve flexibility...and capital.

Fork lift truck outright purchase is not the only way to bring the benefits of Hyundai equipment to an operation. Growing numbers of users are leasing and renting their forklift trucks, rather than tying up valuable working capital in depreciating assets.

Hyundai forklift dealer Rastgar Materials Handling (RMH) is leasing specialists. Contact us for details.

Service & Maintenance

Rastgar Materials Handling (RMH) is equipped to support a full range of Hyundai machines. All of your parts, service, and spares need can be taken care of by us, and as a valued customer you can be confident that our service department will be able to support you and your equipment through any eventuality, thanks to our experienced staff.

Our aim is to ensure your downtime is kept to a minimum through speedy field service. Our service vehicles are fully equipped to carry out the job right 1st time every time and should your machine need workshop attention there is no job too big or small for us to accommodate; services, inspections, and maintenance contracts are available and can be constructed by an engineer to tailor to all your needs.

Rastgar Materials Handling (RMH) specializes in the service and repair of Hyundai Forklift Trucks
